About AFJ:

Alliance for Justice is a national association of environmental, civil rights, mental health, women's, children's, and consumer advocacy organizations. Since its inception in 1979, AFJ has worked to advance the cause of justice for all Americans, strengthen the public interest community's ability to influence public policy, and foster the next generation of advocates.

The **Nonprofit Advocacy Project** and **Foundation Advocacy Initiative** work to strengthen the voice of the nonprofit and philanthropic sectors in important public policy debates by giving tax-exempt organizations a better understanding of the laws that govern their participation in the policy process. Utilizing the resources of five attorney-trainers the Nonprofit Advocacy Project and Foundation Advocacy Initiative serve this need through Workshops, Research & Publications, Public Policy, Lawyers & Accountants, Technical Assistance & Resources and our Speaker Series.
